Flowering Bulbs

HYACINTHS

TULIPS

ETC.

Spring 1942

DEAR FRIEND:

As usual we do not have much variety in bulbs or plants to offer in the spring, since most of our efforts are devoted to producing bulbs suitable for fall planting only.

DELPHINIUMS, in two good strains. Our own strain grown for many years from selected seed that will give fine flowers and sturdy plants. Our well grown plants will compare favorably with any offered.

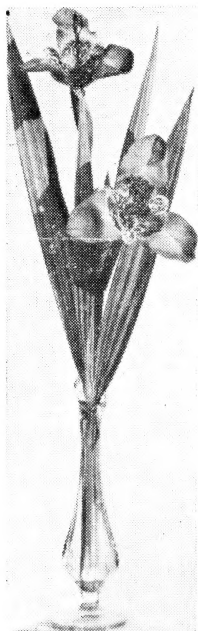

PACIFIC HYBRID DELPHINIUMS, from our own seed selection. This is a fine strain, very sturdy growing and producing flowers of exceptional size. You are sure to be pleased with this or our own Taylor strain.

We can supply these well rooted plants in **MIXED** colors only.

TAYLOR Hybrids, one year old, large size, .20 each; \$2.00 per dozen. Medium size, .15 each; \$1.00 per dozen.

PACIFIC Hybrids, one year old, large size, .25 each; \$2.50 per dozen. Medium size, .20 each; \$2.00 per dozen.

Two year plants, .50 each. All prices **postpaid**.

TIGRIDIA, (Mexican Shell Flower), hardly needs description which is difficult anyway. The picture to the left will give its general appearance, but it must be seen to appreciate its vivid coloring. They bloom continuously from mid-July to frost. Grows about 18 inches tall. Plant three inches deep. We have these bulbs in three separate colors and a mixed lot.

Orange, 6 for .35; 12 for .60; 100 for \$4.00.

Yellow, 6 for .40; 12 for .75; 100 for \$5.00.

Rose, 6 for .45; 12 for .80.

Mixed, 3 colors, 6 for .40; 12 for .70.

CANNAS, King Humbert, highly ornamental, tall with very large glossy bronze leaves as pictured at right. Scarlet flowers at the tips of stems. The beautiful foliage is the main attraction. Grown from tubers planted in a sunny location after danger of frost is past.

Large tubers, .25 each; 6 for \$1.25.

Medium size, .15 each; 6 for .75 prepaid.

Early orders should specify if immediate or later shipment is desired.

Washington customers remember that 3 per cent tax.

Sincerely,

Walter R. and Edith J. Taylor
